1. Qualitative Information on Results for the First Quarter Ended June 30, 2020

(1) Details of Consolidated Financial Results

In the first quarter of the fiscal year under review (from April 1, 2020 to June 30, 2020), economic conditions in Japan deteriorated sharply due to stagnant personal consumption and economic activities resulted from the global spread of the COVID-19.

In the restaurant industry, business environment became stringent, as the COVID-19 prevention measures, such as self-quarantine and the shorter operating hours and/or temporary store closures, were taken under the emergency declaration. Although the economic activities are recovering since the state of emergency has been officially lifted, the concerns for the spread of infection is still prevailing and the situation is remaining uncertain.

Under these circumstances, the same-store sales in the Gyudon category including Sukiya, the Family Dining category including Coco's and Jolly-Pasta, and the Fast Food Service category including Hamazushi were 85.9%, 57.9%, and 75.2% year-on-year, respectively.

At the end of June, 2020, the number of stores stood at 9,856 (including 4,316 franchised restaurants), as a result of 74 store openings and 44 closures.

Consequently, the business performance in the first quarter of the fiscal year under review showed sales of 128,373 million yen (down 16.3% year-on-year), operating loss of 7,970 million yen (profit of 4,434 million yen in the same period of previous year), ordinary loss of 8,135 million yen (profit of 4,082 million yen in the same period of previous year), and loss attributable to owners of parent of 6,382 million yen (profit of 1,917 million yen in the same period of previous year).

An overview of conditions by business segment is provided below.

After the government/municipalities declared the state of emergency and issued a self-quarantine request, sales decreased as a result of the temporary closure and/or shorter operating hours at restaurants. However, various initiatives, such as introducing take-out and delivery services to meet the customers' increasing needs, strengthening sales systems, expanding menu, and implementing a web reservation system, were taken in order to secure sales.
